Special Edition Issue **"ENVIRONMENTAL CHEMISTRY"**

Special Edition - Editor

Prof. R. D. Kaushik

Head,

Department of Chemistry, Gurukula
Kangri University, Haridwar, India

Special Edition - Associate Editor (s)

Dr. Jaspal Singh

Department of Chemistry, Gurukula
Kangri University, Haridwar, India

Dr. Harshvardhan Pant

Department of Chemistry
S.G.R.R. (P.G.) College, Dehradun, India

Special Edition - Assistant Editor

Dr. Suresh Kumar Nishad

Department of Chemistry, Govt. P. G.
College, Rishikesh, India

The *ESSENCE - International Journal for Environmental Rehabilitation and Conservation* is the leading peer reviewed Journal dedicated for Rehabilitation and Conservation of Environment in all aspects. It is devoted to the dissemination of fundamental, theoretical and applied scientific knowledge in all branches of science, arts and commerce from old methods to new innovative ideas to Rehabilitate and Conservation the present Environmental Conditions.

While focusing on theme of Journal the coming issue of journal is based on "Environmental Chemistry". Environmental chemistry is the study of chemical processes that occur in water, air, terrestrial and living environments, and the effects of human activity on them. It includes topics such as atmospheric chemistry, environmental modelling, geochemistry, marine chemistry and pollution remediation. These impacts may be felt on a local scale, through the presence of urban air pollutants or toxic substances arising from a chemical waste site, or on a global scale, through depletion of stratospheric ozone or global warming.

The field of environmental chemistry is both very broad and highly interdisciplinary. Within the Department of Chemistry we have a core group of faculty whose research interests are in atmospheric and aquatic chemistry, photochemistry, and the chemistry and transport of long-lived pollutants.

Since its founding in 2009, The *ESSENCE Journal* has served as the premier forum for the presentation of scientific results that introduce new concepts, innovative technologies, and improved understanding of all the branches of Science, Engineering, Technology, arts and commerce while aiming environmental rehabilitation and conservation. The Journal is dedicated for environmental conservation and publish only online for better circulation among authors and subscribers worldwide, and it is selective in accepting contributions on the basis of merit, novelty and originality.

Manuscripts are welcomed from academic institutes, research institutes, industries, laboratories, government research centers, universities, research organizations and independent scientists. The journal is a peer reviewed, indexed in various indexing agencies and follows open access policy.

Kindly submit your contribution on or before 30 November 2017 under the current call for papers.
