Instructions to Authors &  
Submission

[www.essence-journal.com](http://www.essence-journal.com)

The *ESSENCE - International Journal for Environmental Rehabilitation and Conservation* is an leading peer reviewed Open Access Journal dedicated for Rehabilitation and Conservation of Environment. ESSENCE is devoted to the dissemination of fundamental, theoretical and applied scientific knowledge in all branches of science, arts and commerce from old methods to new innovative ideas to Rehabilitate and Conservation the present Environmental Conditions.

While focusing on theme of Journal, the special edition issue designed with theme "Approaches in Environmental Geography". Environmental geography is the branch of geography that describes the spatial aspects of interactions between humans and the natural world. It requires an understanding of the dynamics of climatology, hydrology, biogeography, geology and geomorphology, as well as the ways in which human societies conceptualize the environment.

With this special issue, ESSENCE Journal aims to publish original academic research of high scholarly standard in the fields of Geography and Environmental Science in its broader sense. Submitted papers are refereed, and are evaluated on the basis of their scientific quality, originality and contribution to the advanced understanding of human-environmental interactions. A distinguished Editorial Board with experts in the field of Geography and Environmental Science guarantees the scientific quality of papers published in the Journal. Manuscripts are welcomed in a wide range of topics in environmental issues (e.g. environmental change and their impact on society, human impact on climate and environment), and further applied research e.g. in the field of earth sciences, soil science, landscape ecology, hydrology and geomorphology related to anthropogenic influences.

Manuscripts are welcomed from academic institutes, research institutes, industries, laboratories, government research centers, universities, research organizations and independent scientists. The journal is a peer reviewed, indexed in various indexing agencies and follows open access policy. Being dedicated for environmental conservation and publish only online for better circulation among authors and subscribers worldwide, and it is selective in accepting contributions on the basis of merit, novelty and originality.
