ENVIRONMENTAL LAW IN INDIA

The *ESSENCE - International Journal for Environmental Rehabilitation and Conservation* is an leading peer reviewed Open Access Journal dedicated for Rehabilitation and Conservation of Environment. *ESSENCE* is devoted to the dissemination of fundamental, theoretical and applied scientific knowledge in all branches of science, arts and commerce from old methods to new innovative ideas to Rehabilitate and Conservation the present Environmental Conditions.

While focusing on theme of Journal, the special edition issue designed with theme "Environmental Law in India". With this special issue, *ESSENCE* Journal welcome all the ideas and thinking of researchers to publish their work covering various laws and policies related to environmental protection, conservation and sustainable development. The need for protection and conservation of environment and sustainable use of natural resources is reflected in the constitutional framework of India and also in the international commitments of India. The Constitution under Part IVA casts a duty on every citizen of India to protect and improve the natural environment including forests, lakes, rivers and wildlife, and to have compassion for living creatures. Further, the Constitution of India under Part IV (Art 48A-Directive Principles of State Policies) stipulates that the State shall endeavour to protect and improve the environment and to safeguard the forests and wildlife of the country.

Several environment protection legislations existed even before Independence of India. However, the true thrust for putting in force a well-developed framework came only after the UN Conference on the Human Environment (Stockholm, 1972). After the Stockholm Conference, the National Council for Environmental Policy and Planning was set up in 1972 within the Department of Science and Technology to establish a regulatory body to look after the environment-related issues.

The proposed issue covers research and review papers from leading research organizations viz. academic institutes, research institutes, industries, laboratories, government research centers, universities, research organizations, independent scientists and Lawyers. The journal is a peer reviewed, indexed in various indexing agencies and follows open access policy. Being dedicated for environmental conservation and publish only online for better circulation among authors and subscribers worldwide, and it is selective in accepting contributions on the basis of merit, novelty and originality.

Kindly submit your contribution on or before **15 May 2018** under the current call for papers.
