FOOD, NUTRITION, HEALTH & HYGIENE

The *ESSENCE - International Journal for Environmental Rehabilitation and Conservation* is an leading peer reviewed Open Access Journal dedicated for Rehabilitation and Conservation of Environment. ESSENCE is devoted to the dissemination of fundamental, theoretical and applied scientific knowledge in all branches of science, arts and commerce from old methods to new innovative ideas to Rehabilitate and Conservation the present Environmental Conditions.

While focusing on theme of Journal, the special edition issue designed with theme "Food, Nutrition, Health & Hygiene". Equal access to essential health, clean water and sanitation services continue to be a priority for India, which houses one-sixth of the world's population. India has already made remarkable strides in the eradication of polio and the elimination of neonatal tetanus. Further, the progress on key health indicators such as infant and maternal mortality rates, as well as the reduction in the incidence of HIV, TB and malaria, helped India meet the Millennium Development Goals on health.

Another aspect is safety, quality and nutritional value of the food we eat is of fundamental importance to our health and wellbeing. Food safety and nutrition are therefore key concerns for the environmental health profession are:

- Informing and educating the public
- Working in partnership with government and stakeholders
- Encouraging and promoting compliance with food legislation
- Providing support to food safety professionals
- Disseminating good practice information
- Sponsoring research to provide a robust evidence base for health improvement
- Providing professional education and development for environmental health practitioners
- The production, transportation, storage, preparation and sale of food in hygienic conditions
- The provision of food that is free from harmful contaminants
- Accurate, informative and comprehensive food labelling which can be easily understood by consumers
- The provision and consumption of healthier foods that are affordable, accessible and locally available
- Food production and procurement based on principles of sustainability

India is focused on ensuring access to water and sanitation services to all. Since the launch of Government of India's flagship scheme, the Swachh Bharat Abhiyan (Clean India Mission), more than 12 million toilets have been constructed in rural areas.

Manuscripts are welcomed from academic institutes, research institutes, industries, laboratories, government research centers, universities, research organizations and independent scientists. The journal is a peer reviewed, indexed in various indexing agencies and follows open access policy. Being dedicated for environmental conservation and publish only online for better circulation among authors and subscribers worldwide, and it is selective in accepting contributions on the basis of merit, novelty and originality.
